
Shanghai Xunte Fluid Machinery Corp.

Profile of Shanghai Xunte Fluid Machinery Corp.

Shanghai Xunte Fluid Machinery Corp., which is located in the city of Shanghai, engages itself to the research, development and sale of fan technologies and products, and spreading and application of high-tech products. The company provides services such as fan development, design, production, test, software development, testing system development, etc.

In the Shanghai Xunte Fluid Machinery Corp., there is Shanghai Xunte Fluid Machinery Institute/Northwest Fan Research and Development Center, Xunte Air Power Laboratory, Xunte Business Network, and Customer Service Center. The company also manages www.chinafan.org website of the Fan Industry Association. The company is devoted to establishing fan test networks (laboratories) in regions across the country to serve the entire fan industry, especially provide small- and middle-sized fan enterprises with powerful technical support service.

Main products:

- | | |
|----------------------|--|
| Fan product series: | Middle- and high-pressure centrifugal fans, middle- and high-pressure axial flow fans, air conditioner fans, tunnel/jet flow fans, etc. |
| Fan software series: | Fan selection systems, fan electronic samples, on-line fan selection systems, fan selection and drawing systems, fan modification design systems, etc. |
| Fan test system: | Automatic fan performance test systems, portable fan test system, and on-line fan test systems. |
| Fan control system: | High-temperature fan control systems, and smart fan test and control systems. |

Other service contents:

- Fan product design, research and development ;
- Provision of complete solution schedule for data acquisition system;
- Design and construction of rig for fan performance test (By China National Standards GB/T1236-2000 and AMCA);
- Production of fan electronic sample ;
- Development of fan software, or customization of fan software for specific applications of enterprises ;
- External fan test services;
- Development and application of fan electronic business systems, and assisting enterprises in building application platforms of fan electronic business systems;
- Services for building enterprise website.

Xunte Fluid Machinery Institute/Northwest Fan Research and Development Center:

Address: Room 3-12304, Dongfang Plaza, East Section No.1, Road Nan'erhuan, Xi'an, China
Tel: 86-29-88506613, 159-9162-5158, Fax: 86-29-82219288, Post Code: 710048
Website: <http://www.fansoft.cn> , Email: fansoft@fansoft.cn

Xunte Air Power Laboratory (East China):

Address: No. 378, Xinta Street, Luxu Township, Wujiang City, Jiangsu, China
Tel: 86-29-88506613, 159-9162-5158, Fax: 86-29-82219288, Post Code: 215213
